- Angular CLI
- CSS
- Material UI
- Python
- Javascript
- HTML
- Firebase
- Virtual Private Server(VPS)
- C Programming

## EXPERIENCE

### WEB DEVELOPER

*December 2022 - Present*

Futuready Media

- At Futuready Media, I specialize in creating responsive, engaging, and visually appealing websites that deliver exceptional user experiences
- My role involves designing and developing web solutions tailored to client needs, ensuring they are optimized for performance and accessibility across all devices
- A significant achievement in this role is solely managing the setup of a Virtual Private Server (VPS) and deploying a React.js application on it
- This process included configuring the server environment, ensuring smooth deployment, and maintaining high-performance standards
- Through my work, I focus on combining creativity and functionality to produce high-quality digital solutions that align with business goals and enhance user satisfaction
- Developed custom websites to meet individual client needs.
